

MOSA MAGDY MOSA

SOFTWARE ENGINEER | BACK-END DEVELOPER (NODE.JS & EXPRESS) DATABASES
(MONGODB & SQL)

Address: New Cairo, Cairo, Egypt | Gmail: mosaelwayly@gmail.com LinkedIn:
<https://www.linkedin.com/> | Phone: +201060831273 | [Github](#) | [Portfolio](#)

PERSONAL OVERVIEW

Motivated and detail-oriented Back-End Developer with hands-on experience in Node.js, Express.js, and RESTful API development, building secure and scalable server-side applications. Completed the Back-End phase of a Full Stack Web Development Diploma and gained practical training experience at RiskRice, applying modern backend practices in real-world projects. Skilled in MongoDB, SQL, authentication and authorization (JWT & OAuth), and API integration, with strong understanding of MVC architecture, database design, and server deployment. Familiar with Git, GitHub, and Agile methodologies, and proficient in connecting front-end frameworks like Angular and React with dynamic APIs. Currently enhancing skills in performance optimization, security best practices, and cloud deployment (Render, Vercel, AWS).

EXPERIENCE

- Route Academy & RiskRice | Software Engineer | Back-End Developer (Node.js & Express)
- Jan 2024 – Present
- Developed multiple fullstack projects, gaining practical experience in frontend and backend.
- Built clean, maintainable, and scalable web applications as a freelancer.
- Designed and implemented RESTful APIs with JWT & OAuth authentication.
- Integrated databases using MongoDB and SQL for real-world projects.
- Collaborated in teams using Agile methodologies to ensure efficient project delivery.
- Applied best practices in server-side development, MVC architecture, and API integration.
- Worked with Route Academy and RiskRice, completed multiple fullstack projects, gaining practical experience in both frontend and backend development. Also worked extensively as a freelancer, delivering various web projects with a focus on clean, maintainable, and scalable code

TECHNICAL SKILLS

- Back-End: Node.js, Express.js, RESTful APIs, Authentication (JWT, OAuth), MVC, MongoDB, SQL, NoSQL
- Databases: MongoDB, SQL Server, Database Design, Query Optimization
- Front-End Integration: Angular, React, TypeScript, JavaScript (ES6+), JSON
- Tools: Git, GitHub, VS Code, Postman, npm, Render, Vercel
- Others: Python (Basics), C++, Agile, API Testing, Deployment

SOFT SKILLS

Problem Solving, Communication, Time Management, Team Collaboration, Fast Learner, Leadership, Active Listening

Technical Productivity: Proficient in AI Tools for Development and Productivity

LANGUAGES

●Arabic (Native)

●English (B2)

●German (A2).

KEY PROJECTS

- CRM System – Developed a Node.js + MongoDB back-end with RESTful APIs, admin dashboard, real-time search, and scalable architecture for managing clients, orders, and reports. [GitHub Repo](#)
- E-Commerce Platform – Created a fullstack e-commerce platform using Node.js, Express, and MongoDB, including an admin dashboard for managing products, orders, and users . [GitHub Repo](#)
- Educational Platform – Developed an educational platform with Angular, Node.js, and MongoDB,featuring course management APIs, activity tracking, and admin access. [GitHub Repo](#)

EDUCATION

New Cairo Academy

- Bachelor's Degree in Computer Science | 2022 – 2026
